GCubed Enterprises, Inc. Wins Big with USAASC Contract!

Stafford, Virginia –

The United States Army Acquisition Support Center (USAASC) recently announced GCubed Enterprises, Inc. a successful awardee for a five-year contract providing IT support services. GCubed will deliver comprehensive desktop support to include hardware and software installation and configuration, VTC facilitation, and limited VOIP phone support/coordination with the local provider.

Vernon Green Jr., GCubed Founder & CEO, offered praise for his team, “We attribute our success to the fine work our employees accomplish and our commitment to investing in our people first. USAASC gave glowing remarks about the work our team is doing and we couldn’t be more proud! As we continue to grow, it will be with our people, not on the backs of our people.”

About GCubed Enterprises, Inc.

GCubed is a veteran-owned, 8(a) business with defense, civilian, and commercial past performance. Areas of expertise include network engineering, cybersecurity, and program management. The company is headquartered in Stafford, Virginia, with contractors across nine sites in the greater Washington, D.C. metropolitan area. www.gcubedinc.com

About USAASC

The U.S. Army Acquisition Support Center (USAASC) is a Direct Reporting Unit (DRU) supporting the Army’s acquisition mission through superior personnel development systems and management support capabilities, enabling the most effective and efficient equipping of the Nation’s forces while maintaining an internal culture of constant organizational improvement. <https://asc.army.mil/web/>
