**GCubed Continues Award Streak with Third Contract of 2019**

**Stafford, Virginia** – The Center for Army Analysis (CAA), Army Modeling and Simulation Office (AMSO) recently announced GCubed a successful awardee for their IT Support Services contract.

Vernon Green Jr., GCubed Founder and CEO, says, “We are pleased to continue serving our CAA AMSO customer with IT Support Services. In partnership with the CAA IT Team, this has been a success due to the expertise and commitment of our team. This new award expands on our previous support and we look forward to the challenge.”

**About GCubed**

GCubed is a veteran-owned, 8(a) business with defense, civilian, and commercial past performance. Areas of expertise include network engineering, cybersecurity, and program management. The company is headquartered in Stafford, Virginia, with contractors across nine sites in the greater Washington, D.C. metropolitan area. [www.gcubedinc.com](http://www.gcubedinc.com)

**About the Center for Army Analysis (CAA), Army Modeling & Simulation Office (AMSO)**

The Army Modeling and Simulation Office (a major component of CAA) develops the strategy and policy for the Army Modeling and Simulation Enterprise and executes effective governance and resource management through leadership and synchronization, with a focus on the Army enterprise and cross-community areas across the Joint, Intergovernmental, Interagency, and Multinational environments.
