

SimVentions, Inc. Welcomes John Lysher as Cybersecurity Group Vice President

Fredericksburg, VA – December 10, 2019 – John Lysher brings over three decades of experience in joining SimVentions corporate leadership team.

Lysher is assuming the responsibilities of SimVentions Cybersecurity Group Vice President (GVP), replacing Megan Shepherd who was recently promoted to Chief Operating Officer. He will provide the leadership, management, and vision to the Cybersecurity Group necessary to continue the focus on customer delivery, quality products, and advancement of technical skills. He will also be a key contributor on the corporate leadership team and participate in executive level decision making on SimVentions future.

Lysher recently retired as the Senior Scientific Technical Manager (SSTM) for the Weapons Control & Integration Department, located at the Naval Surface Warfare Center, Dahlgren Division (NSWCDD), in Dahlgren, VA. While at NSWCDD, he provided executive-level leadership over a large science and engineering workforce performing research, development, test and evaluation (RDT&E), analysis, systems engineering, and integration of complex weapons, principally in the areas of asymmetric systems, maritime warfare control, missile systems integration, weapons effectiveness, platform integration, and strike weapons systems.

Lysher has a Bachelor of Science Degree in Computer Science from the Virginia Polytechnic Institute and State University and a Master of Science Degree in Computer Science from George Mason University.

SimVentions specializes in professional engineering services to the Department of Defense. For more information, visit us at www.simventions.com.
